

A WEEKLY CHANGING MENU OF LARGE CUTS, SHOWCASING A DIFFERENT BREED OF CATTLE EACH WEEK FROM BRITISH SUPPLIERS.

SUSSEX RED

Menu available until 17th November

Sussex cattle are a red breed of beef cattle from the Weald of Sussex, Surrey and Kent in south eastern England. Descended from the draught oxen long used on the Weald they were selectively bred from the late 18th century to form a modern beef breed which is now used in many countries around the world. Our Sussex Red this week are from Mathew Long, Burton's Green, Essex. As suppliers they share our passion for sustainability and good quality produce.
